

# INDUSTRIAL SEWING MACHINIST TRAINING – PERIPATETIC SERVICE

## Practical training for new recruits!

### A peripatetic service for the training of new industrial sewing machinists.

<b>Who is it for?</b>	New recruits, trainee sewing machinists, low performers, rusty machinists or those in need of re-training
<b>Service objectives</b>	To provide the sewing industry with a practical, bespoke training service. The service will deliver initial coaching that prepares new employees for production and in the longer term helps them to meet quality and quantity standards in the shortest possible time.
<b>What does the service offer?</b>	<p>The Textiles Skills Consultancy will work with your company to analyze and agree training needs. We can offer flexibility across a range of delivery options, see examples below:</p> <ul style="list-style-type: none"> <li>○ An industry experienced, flexible trainer</li> <li>○ Short, sharp delivery of the initial basics</li> <li>○ A formal, systematic training program for beginners – ‘The Industrial Sewing Machinists Manual and workbook’ (see separate flyer)</li> <li>○ Development of a company training manual/ program</li> <li>○ One off training on specific techniques or products</li> <li>○ Low performance coaching</li> <li>○ National Apprenticeship support</li> </ul> <p><b>NOTE:</b> Training will take place on your premises, ideally on the machinery which the trainees will be expected to operate. However, delivery can take place externally on request, this will incur additional cost.</p>
<b>What does it cost?</b>	<p>The service is delivered on a daily rate as detailed below:</p> <ul style="list-style-type: none"> <li>○ <b>Training needs analysis and identification of suitable program</b> - no charge</li> <li>○ <b>Delivery day rate 9am -5pm:</b> £350 per day, reduced if the work program agreed exceeds five days</li> </ul> <p><b>NOTE:</b> The Industrial Sewing Machinists Manual and workbook is sold at £1150. (see separate flyer) However, if it is utilized as part of this service the cost of this product will be reduced to £900. It will be supplied electrically, is not limited to learner numbers and can be used for ever after.</p> <p>The Textiles Skills Consultancy will endeavour to source public funding to support delivery.</p>
